WAR DEPARTMENT, OFFICE OF THE SURGEON GENERAL,  
ARMY MEDICAL MUSEUM AND LIBRARY,

*Washington, November 28, 1914.*

Gen. WM. C. GORGAS,  
*Surgeon-General, U. S. Army.*

GENERAL: I have the honor to present herewith the nineteenth volume of the second series of the Index Catalogue of the Library of this Office.

This volume includes 3,046 author titles, representing 1,353 volumes and 2,744 pamphlets. It also contains 3,736 subject titles of separate books and pamphlets and 32,739 titles of articles in periodicals.

The Library now contains 189,171 bound volumes and 325,639 pamphlets.

The following table shows the number of titles in the Index Catalogue as far as published:

|                            | AUTHOR TITLES. |          |            | SUBJECT TITLES. |                   | Portraits. |
|----------------------------|----------------|----------|------------|-----------------|-------------------|------------|
|                            | Titles.        | Volumes. | Pamphlets. | Book titles.    | Journal articles. |            |
| Total in first series..... | 176,364        | 85,663   | 151,504    | 168,557         | 511,112           | 4,335      |
| Second series, Vol. I..... | 6,346          | 6,127    | 6,327      | 7,884           | 30,384            | .....      |
| Vol. II.....               | 15,732         | 6,383    | 14,802     | 5,774           | 21,725            | .....      |
| Vol. III.....              | 11,112         | 4,873    | 10,690     | 10,636          | 34,314            | 677        |
| Vol. IV.....               | 9,628          | 4,133    | 8,523      | 8,828           | 28,316            | .....      |
| Vol. V.....                | 6,825          | 2,695    | 5,957      | 7,645           | 40,045            | .....      |
| Vol. VI.....               | 15,589         | 5,865    | 14,296     | 5,962           | 30,561            | .....      |
| Vol. VII.....              | 6,225          | 2,692    | 8,157      | 13,179          | 32,522            | .....      |
| Vol. VIII.....             | 10,704         | 5,330    | 9,897      | 5,731           | 29,684            | .....      |
| Vol. IX.....               | 8,706          | 2,599    | 8,291      | 5,322           | 31,481            | .....      |
| Vol. X.....                | 10,122         | 4,690    | 10,750     | 10,856          | 22,622            | .....      |
| Vol. XI.....               | 8,023          | 4,063    | 9,311      | 5,634           | 34,211            | .....      |
| Vol. XII.....              | 5,476          | 2,355    | 5,195      | 10,996          | 35,324            | .....      |
| Vol. XIII.....             | 5,566          | 3,250    | 4,851      | 7,678           | 40,221            | .....      |
| Vol. XIV.....              | 10,019         | 5,281    | 8,058      | 4,065           | 31,370            | .....      |
| Vol. XV.....               | 8,804          | 4,688    | 7,460      | 3,616           | 28,328            | .....      |
| Vol. XVI.....              | 9,890          | 4,670    | 10,786     | 3,892           | 24,135            | .....      |
| Vol. XVII.....             | 2,357          | 3,850    | 8,490      | 3,571           | 36,898            | .....      |
| Vol. XVIII.....            | 3,865          | 4,117    | 2,693      | 5,223           | 45,525            | 120        |
| Vol. XIX.....              | 3,046          | 1,353    | 2,744      | 3,736           | 32,739            | 47         |
| Total to date.....         | 334,399        | 164,677  | 308,782    | 298,785         | 1,121,517         | 5,179      |

Very respectfully,

C. C. McCULLOCH, JR.,  
*Lieutenant-Colonel, Medical Corps, U. S. A.,*  
*Librarian, S. G. O.*

No. 20. Washed soils: how to prevent and reclaim them. 22 pp. 8°. Washington, Gov. Print. Office, 1894.

No. 22. The feeding of farm animals. By E. W. Allen. Revised ed. 32 pp. 8°. Washington, Gov. Print. Office, 1897.

No. 24. Hog cholera and swine plague. By D. E. Salmon. 16 pp. 8°. Washington, Gov. Print. Office, 1894.

No. 28. Weeds; and how to kill them. By Lyster H. Dewey. 32 pp. 8°. Washington, Gov. Print. Office, 1895.

No. 41. Fowls: Care and feeding. By G. C. Watson. 24 pp. 8°. Washington, Gov. Print. Office, 1896.

No. 42. Facts about milk. By R. A. Pearson. 29 pp. 8°. Washington, Gov. Print. Office, 1896.

No. 43. Sewage disposal on the farm, and the protection of drinking water. By Theobald Smith. 20 pp. 8°. Washington, Gov. Print. Office, 1896.

No. 51. Standard varieties of chickens. By George E. Howard. 48 pp. 8°. Washington, Gov. Print. Office, 1899.

No. 63. Care of milk on the farm. By R. A. Pearson. 40 pp. 8°. Washington, Gov. Print. Office, 1897.

No. 85. Fish as a food. By C. F. Langworthy. 30 pp. 8°. Washington, Gov. Print. Office, 1898.

No. 120. The principal insects affecting the tobacco plant. By L. O. Howard. 32 pp. 8°. Washington, Gov. Print. Office, 1900.

No. 121. Beans, peas, and other legumes as food. By Mary Hiaman Abel. 32 pp. 8°. Washington, Gov. Print. Office, 1900.

No. 131. Household tests for the detection of oleomargarine and renovated butter. By G. E. Patrick. 10 pp. 8°. Washington, Gov. Print. Office, 1901.

No. 132. The principal insect enemies of growing wheat. By C. L. Marlatt. 38 pp. 8°. Washington, Gov. Print. Office, 1907.

No. 133. Emmer; a grain for the semiarid regions. By Mark Alfred Carleton. 16 pp. 8°. Washington, Gov. Print. Office, 1901.

No. 142. Principles of nutrition and nutritive value of food. By W. O. Atwater. 48 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 143. Conformation of beef and dairy cattle. By Andrew M. Soule. 44 pp. 8°. Washington, Gov. Print. Office, 1902.

No. 144. Experiment station work. XIX. Maintenance of soil fertility. Thomas slag. Rotation of crops. Gardening under glass. Winter irrigation of orchards. Improvement of American grapes. Condimental and medicinal cattle and poultry foods. Feeding rice meal to pigs. Dressing and packing poultry. The curing of cheese. An improved cow stall. 132 pp. 8°. Washington, Gov. Print. Office, 1901.

No. 145. Carbon bisulphid as an insecticide. By W. E. Hinds. 28 pp. 8°. Washington, Gov. Print. Office, 1902.

No. 146. Insecticides and fungicides; chemical composition and effectiveness of certain preparations. By J. K. Haywood. 16 pp. 8°. Washington, Gov. Print. Office, 1902.

No. 147. Winter forage crops for the South. By Carleton R. Ball. 39 pp. 8°. Washington, Gov. Print. Office, 1902.

No. 152. Scabies of cattle. By Richard W. Hickman. 32 pp. 8°. Washington, Gov. Print. Office, 1904.

No. 155. How insects affect health in rural districts. By L. O. Howard. 19 pp. 8°. Washington, Gov. Print. Office, 1902.

No. 159. Scab in sheep. By D. E. Salmon and Ch. Wardell Stiles. 45 pp. 8°. Washington, Gov. Print. Office, 1903.

No. 166. Cheese making on the farm. By Henry E. Alvord. 16 pp. 8°. Washington, Gov. Print. Office, 1903.

No. 170. Principles of horse feeding. By C. F. Langworthy. 43 pp. 8°. Washington, Gov. Print. Office, 1903.

No. 175. Home manufacture and use of unfermented grape juice. By Geo. C. Husmann. 15 pp. 8°. Washington, Gov. Print. Office, 1903.

No. 188. Weeds used in medicines. By Alice Henkel. 45 pp. 8°. Washington, Gov. Print. Office, 1904.

**United States—continued.**

No. 203. Canned fruit, preserves, and jellies; household methods of preparation. By Maria Parloa. 31 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 205. Pig management. By George M. Rommel. 45 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 206. Milk fever; its simple and successful treatment. By John R. Mohler. 16 pp. 8°. Washington, Gov. Print. Office, 1904.

No. 219. Lessons from the grain-rust epidemic of 1904. By Mark Alfred Carleton. 24 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 236. Incubation and incubators. By Richard H. Wood. 31 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 237. Experiment station work. Compiled from the publications of the agricultural experiment stations. Lime and clover, plant food requirements of fruit trees, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 241. Butter making on the farm. By Edwin H. Webster. 31 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 244. Experiment station work, compiled from the publications of the agricultural experiment stations. Handling seed corn, cooking quality of potatoes, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 245. Renovation of worn out soils. By W. J. Spillman. 16 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 247. The control of the codling moth and the apple scab. By C. L. Marlatt and W. A. Orton. 23 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 243. The lawn. By L. C. Corbett. 20 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 249. Cereal breakfast foods. By Charles D. Woods and Harry Snyder. 36 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 251. Experiment station work. Compiled from the publications of the agricultural experiment stations. American sugar-beet seed. Stimulants for seeds. Fertility of eggs, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 258. Texas or tick fever and its prevention. By John R. Mohler. 45 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 259. Experiment station work. Compiled from the publications of the agricultural experiment stations. The use of commercial fertilizers, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 261. The cattle tick in its relation to Southern agriculture. By August Mayer. 24 pp. 8°. Washington, Gov. Print. Office, 1905.

No. 262. Experiment station work. Compiled from the publications of the agricultural experiment stations. Water for table use, phosphates, winter wheat, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 255. Game laws for 1905. A summary of the provisions relating to seasons, shipment, sale, and licenses. By T. S. Palmer and R. W. Williams, jr. 54 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 237. Experiment station work. Compiled from the publications of the agricultural experiment stations. Breeding corn, buckwheat, etc. By A. C. True. 32 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 268. Industrial alcohol; sources and manufacture. By H. W. Wiley. 45 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 269. Industrial alcohol; uses and statistics. By H. W. Wiley. 29 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 270. Modern convenience for the farm home. By Elmina T. Wilson. 48 pp. 8°. Washington, Gov. Print. Office, 1906.

No. 275. The gipsy moth and how to control it. By L. O. Howard. 22 pp. 8°. Washington, Gov. Print. Office, 1907.

No. 293. Use of fruit as food. By C. F. Langworthy. 38 pp. 8°. Washington, Gov. Print. Office, 1907.

No. 309. Experiment station work. XLIII. 32 pp. 8°. Washington, Gov. Print. Office, 1907.

No. 316. Experiment station work. XLIV. 32 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 317. Experiment station work. XLV. 32 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 320. Experiment station work. XLVI. 32 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 323. Clover farming on the sandy jack-pine lands of the North. By C. Beaman Smith. 24 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 325. Small farms in the corn belt. By J. A. Warren. 29 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 329. Experiment station work. XLVII. 32 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 332. Nuts and their uses as food. By M. E. Jaffa. 28 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 334. Experiment station work. XLVIII. 32 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 335. Harmful and beneficial mammals, with special reference to the Carson and Humboldt Valleys, Nevada. By Vernon Bailey. 31 pp. 8°. Washington, Gov. Print. Office, 1908.

No. 337. Cropping systems for New England dairy farms. By L. G. Dodge. 24 pp. 8°. Washington, Gov. Print. Office, 1908.

- Circular No. 38. Foot-and-mouth disease: warning to all owners of cattle, sheep, and swine. 3 pp. 8°. [Washington, 1902.]
- Special report on diseases of the horse. By Drs. Pearson, Michener, Law, Harbaugh, Trumbower, Liautard, Holcombe, Huidekoper, Stiles, and Adams. Rev. ed. 57. Cong., 2. sess. H. R. Doc. No. 487. 600 pp., 41 pl. 8°. Washington, Gov. Print. Office, 1903.
- Bulletin No. 44. Infectiveness of milk of cows which have reacted to the tuberculin test. By John R. Mohler. 93 pp., 2 pl. 8°. Washington, Gov. Print. Office, 1903.
- Bulletin No. 45. Takosis, a contagious disease of goats. A preliminary report on its nature, cause, and prevention. By John R. Mohler and Henry J. Washburn. 44 pp., 5 pl. 8°. Washington, Gov. Print. Office, 1903.
- Bulletin No. 46. The milk supply of two hundred cities and towns. By Henry E. Alvord and R. A. Pearson. 210 pp. 8°. Washington, Gov. Print. Office, 1903.
- Bulletin No. 50. German meat regulations, with original text. 51 pp. 8°. Washington, Gov. Print. Office, 1903.
- Circular No. 39. The water content of creamery butter. 4 pp. 8°. [Washington, 1903.]
- Circular No. 41. A form of hog cholera not caused by the hog cholera bacillus. 4 pp. 8°. [Washington, 1903.]
- Operations of the Bureau of Animal Industry. Message from the President of the United States, transmitting a report by the Secretary of Agriculture relating to the operations of the Bureau of Animal Industry, for the year ended June 30, 1904. 58. Cong., 3. sess. H. R. Doc. No. 206. 110 pp. 8°. [Washington, 1904.]
- Bulletin No. 52. Experiments concerning tuberculosis, under the supervision of the Biochemic Division. Parts I-III. 8°. Washington, 1904-5.

## CONTENTS.

- Part I. The virulence of human and bovine tubercle bacilli for guinea pigs and rabbits. By Marion Dorset. Nov. 23, 1903. vi, 30 pp., 5 pl.
- Part II. The comparative virulence of human and bovine tubercle bacilli for some large animals. By E. A. de Schweinitz, Marion Dorset, and E. C. Schroeder. vi, 31-100 pp., 26 pl.
- Part III. Studies in immunity from tuberculosis, by E. C. Schroeder, and the persistence of tubercle bacilli in tissues of animals after injection, by E. C. Schroeder and W. E. Cotton. v, 101-125 pp.
- Bulletin No. 53. Reports on bovine tuberculosis and public health. By D. E. Salmon. 63 pp. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 54. Laws (Federal, State, and Territorial) relating to contagious and infectious diseases of animals, 1902 and 1903. 46 pp. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 57. Studies upon the keeping quality of butter. I. Canned butter. By Lore A. Rogers. 24 pp. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 58. The fat testing of cream by the Babcock method. By Ed. H. Webster and C. E. Gray. 29 pp., 2 pl. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 59. The farm separator; its relation to the creamery and to the creamery patron. By Ed. H. Webster. 47 pp. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 60. Manson's eye worm of chickens, with a general review of nematodes parasitic in the eyes of birds, and notes on the

- spiny suckered tapeworms of chickens. By B. H. Ransom. 72 pp. 8°. Washington, Gov. Print. Office, 1904.
- Bulletin No. 62. The relation of bacteria to the flavors of cheddar cheese. By Lore A. Rogers. 38 pp. 8°. Washington, Gov. Print. Office, 1904.
- Circular No. 43. Immunization from hog cholera. 3 pp. 8°. [Washington, 1904.]
- Circular No. 47. A new parasite (*Strongylus quadriradiatus* n. sp.) found in the pigeon. (Preliminary report.) 6 pp. 8°. [Washington, 1904.]
- Circular No. 51. Mycotic stomatitis of cattle. 6 pp. 8°. [Washington, 1904.]
- Circular No. 54. Pathological report on a case of rabies in a woman. By John R. Mohler. pp. 54-60, 1 pl. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 57. Invisible microorganisms. By M. Dorset. pp. 139-156. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 58. Pulmonary mycosis of birds, with report of a case in a flamingo. By John R. Mohler and John S. Buckley. pp. 122-136, 5 pl. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 60. Certain variations in the morphology of tubercle bacilli of bovine origin. By C. V. McBryde. pp. 110-113, 2 pl. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 61. The desirability of phosphates as an addition to culture media for tubercle bacilli. By M. Dorset. pp. 106-108, 2 pl. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 63. A review of some experimental work in pig feeding. By George M. Rommel. pp. 261-311. 8°. Washington, Gov. Print. Office, 1904.
- Repr. from: Rep. Bureau Animal Indust., Wash., 1903, xx.
- Circular No. 64. A new nematode (*Gongylomena ingluvicola*) parasitic in the crop of chickens. 3 pp. 8°. [Washington, 1904.]
- Circular No. 66. Osteomalacia in cattle. By V. T. Atkinson. 2 pp. 8°. [Washington, 1904.]
- Repr. from: Rep. Diseases of Cattle, U. S. Dep. Agric., Wash., 1904.
- Farmers' Bulletin No. 206. Milk fever; its simple and successful treatment. By John R. Mohler. 16 pp. 8°. Washington, Gov. Print. Office, 1904.
- Operations of the Bureau of Animal Industry. Message from the President of the United States, transmitting a report of the operations of the Bureau of Animal Industry for the fiscal year ended June 30, 1905. 59. Cong., 1. sess. H. R. Doc. No. 417. 123 pp. 8°. Washington, Gov. Print. Office, 1905.
- Bulletin No. 63. Foot rot of sheep; its nature, cause, and treatment. By John R. Mohler and Henry J. Washburn. 39 pp. 8°. Washington, Gov. Print. Office, 1905.
- Bulletin No. 66. The gid parasite; its presence in American sheep. By B. H. Ransom. 23 pp. 8°. Washington, Gov. Print. Office, 1905.
- Bulletin No. 68. Information concerning the milch goats. By George Fayette Thompson. 87 pp., 16 pl. 8°. Washington, Gov. Print. Office, 1905.

**United States—continued.**

- Bulletin No. 69. The external parasites of hogs, being articles on the hog louse (*Hæmatopinus suis*) and mange, or scabies of hogs. By Earle C. Stevenson. 44 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 70. The milk supply of twenty-nine Southern cities. By C. F. Doane. 40 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 71. The Camembert type of soft cheese in the United States. By H. W. Conn [et al.]. 29 pp., 2 pl. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 72. The etiology of hog cholera. By M. Dorset, B. M. Bolton, and C. N. McBryde. ix, 101 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 73. The bacteria of pasteurized and unpasteurized milk under laboratory conditions. By Lore A. Rogers. 32 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 74. Energy value of red clover hay and maize meal. Investigations with the respiration calorimeter in cooperation with the Pennsylvania State College Agricultural Experiment Station. By Henry Prentiss and J. August Fries. 64 pp., 3 diag. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 75. Records of dairy cows in the United States. By Clarence B. Lane. 184 pp., 17 pl. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 78. Texas fever (otherwise known as tick fever, splenetic fever, or Southern cattle fever), with methods for its prevention. By John R. Mohler. 48 pp., 3 pl. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 79. The determination of generic types and a list of roundworm genera, with their original and type species. By Ch. Wardell Stiles and Albert Hassall. 150 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 80. The synonymy of *Tænia*, *T. crassicolis*, *T. marginata*, *T. serrata*, *T. cœnurus*, *T. serialis*, and *Echinococcus*. By Ch. Wardell Stiles and Earle C. Stevenson. 14 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Bulletin No. 81. The milk supply of Boston, New York, and Philadelphia. By George M. Whitaker. 62 pp. 8°. *Washington, Gov. Print. Office*, 1905.
- Circular No. 14 (revised). United States and territorial standards for dairy products. 2 pp. 8°. [*Washington*, 1905.]
- Circular No. 65. Ophthalmia in cattle. By M. R. Trumbower. 2 pp. 8°. [*Washington*], 1905.  
*Repr. from: Rep. diseases of cattle, U. S. Dep. Agric., Wash., 1904.*
- Circular No. 67. Abortion or slinking the calf. By James Law. 11 pp. 8°. *Washington*, 1905.  
*Repr. from: Rep. diseases of cattle, U. S. Dep. Agric., Wash., 1904.*
- Circular No. 68. Diseases of the stomach and bowels of cattle. By A. J. Murray. 10 pp. 8°. [*Washington*], 1905.  
*Repr. from: Rep. diseases of cattle, U. S. Dep. Agric., Wash., 1904.*
- Circular No. 69. Texas fever or Southern cattle fever. By D. E. Salmon and Theobald Smith. 13 pp. 8°. [*Washington*], 1905.  
*Repr. from: Rep. diseases of cattle, U. S. Dep. Agric., Wash., 1904.*

**United States—continued.**

**CONTENTS.**

No. 1. Formalin disinfection of baggage without apparatus. By M. J. Rosenau. 34 pp. 1900.

No. 2. Preliminary note on the viability of the bacillus pestis. By M. J. Rosenau. 19 pp. 1900.

No. 3. Sulphur dioxide as a germicidal agent. By H. D. Geddings. 12 pp. 1901.

No. 4. Viability of the bacillus pestis. By M. J. Rosenau. 44 pp. 1901.

No. 5. An investigation of a pathogenic microbe (B. typhi murium—Danysz) applied to the destruction of rats. By M. J. Rosenau. 11 pp. 1901.

No. 6. Disinfection against mosquitoes with formaldehyd and sulphur dioxide. By M. J. Rosenau. 20 pp. 1901.

No. 7. Laboratory technique. Ring test for indol. By S. B. Grubbs and Edward Francis.—Collodium sacs. By S. B. Grubbs and Edward Francis.—Microphotography with simple apparatus. By H. B. Parker. 10 pp., 2 pl. 1902.

No. 8. Laboratory course in pathology and bacteriology. By M. J. Rosenau. 5 pp. 1902.

No. 9. Presence of tetanus in commercial gelatin. By John F. Anderson. 6 pp. 1902.

No. 10. Report upon the prevalence and geographic distribution of hookworm disease (uncinariasis or ancylostomiasis) in the United States. By Ch. Wardell Stiles. 12 pp. 1903.

No. 11. An experimental investigation of Trypanosoma Levisi. By Edward Francis. 26 pp., 4 pl. 1903.

No. 12. The bacteriological impurities of vaccine virus. An experimental study. By M. J. Rosenau. 50 pp. 1903.

No. 13. A statistical study of the intestinal parasites of

**United States—continued.****CONTENTS—continued.**

500 white male patients at the United States Government Hospital for the Insane. By Philip E. Garrison, Brayton H. Ransom and Earle C. Stevenson. 21 pp. 1903.

No. 14. Spotted fever (tick fever) of the Rocky Mountains. By John F. Anderson. 50 pp., 6 pl., 2 maps. 1903.

No. 15. Inefficiency of ferrous sulphate as an antiseptic and germicide. By Allan J. McLaughlin. 7 pp. 1903.

No. 16. The antiseptic and germicidal properties of glycerin. By M. J. Rosenau. 30 pp. 1903.

No. 17. Illustrated key to the trematode parasites of man. By Ch. Wardell Stiles. 66 pp., 3 pl. 1904.

No. 18. An account of the tapeworms of the genus Hymenolepis parasitic in man. By Brayton H. Ransom. 138 pp. 1904.

No. 19. A method for inoculating animals with precise amounts. By M. J. Rosenau. 7 pp., 2 pl. 1904.

No. 20. A zoological investigation into the cause, transmission, and source of Rocky Mountain "spotted fever." By Ch. Wardell Stiles. 119 pp. 1905.

No. 21. The immunity unit for standardizing diphtheria antitoxin (based on Ehrlich's normal serum). Official standard prepared under the act approved July 1, 1902. By M. J. Rosenau. 92 pp. 1905.

No. 22. Chloride of zinc as a deodorant, antiseptic, and germicide. By T. B. McClintic. 24 pp. 1905.

No. 23. Changes in the Pharmacopoeia of the United States of America. Eighth decennial revision (official from Sept. 1, 1905). By Reid Hunt and Murray Galt Motter. 122 pp. 1905.

No. 24. The international code of zoological nomenclature as applied to medicine. By Ch. Wardell Stiles. 50 pp. 1905.

No. 25. Illustrated key to the cestode parasites of man. By Ch. Wardell Stiles. 104 pp. 1906.

No. 26. On the stability of the oxidases and their conduct toward various reagents. The conduct of phenolphthalein in the animal organism. A test for saccharin, and a simple method of distinguishing between cumarin and vanillin. The toxicity of ozone and other oxidizing agents to lipase. The influence of chemical constitution on the lipolytic hydrolysis of ethereal salts. By J. H. Kastle. 51 pp. 1906.

No. 27. The limitations of formaldehyde gas as a disinfectant, with special reference to car sanitation. By Thomas B. McClintic. 112 pp. 1906.

No. 28. A statistical study of the prevalence of intestinal worms in man. By Ch. Wardell Stiles and Philip E. Garrison. 77 pp. 1906.

No. 29. A study of the cause of sudden death following the injection of horse serum. By M. J. Rosenau and John F. Anderson. 95 pp. 1906.

No. 30. I. Maternal transmission of immunity to diphtheria toxine. II. Maternal transmission of immunity to diphtheria toxine and hypersusceptibility to horse serum in the same animal. By John F. Anderson. 19 pp. 1906.

No. 31. Variations in the peroxidase activity of the blood in health and disease. By Joseph H. Kastle and Harold L. Amoss. 26 pp. 1906.

No. 32. A stomach lesion in guinea pigs caused by diphtheria toxine and its bearing upon experimental gastric ulcer. By M. J. Rosenau and John F. Anderson. 10 pp., 8 pl. 1906.

No. 33. Studies in experimental alcoholism. By Reid Hunt. 43 pp. 1907.

No. 34. I. Agamofilaria georgiana n. sp., an apparently new roundworm parasite from the ankle of a negress. II. The zoological characters of the roundworm genus Filaria Mueller. 1787. III. Three new American cases of infection of man with horse-hair worms (species Paragordius varius), with summary of all cases reported to date. By Ch. Wardell Stiles. 75 pp. 1907.

No. 35. Report on the origin and prevalence of typhoid fever in the District of Columbia. By M. J. Rosenau, L. L. Lumsden, and Joseph H. Kastle. 361 pp., ch. 1907.

No. 36. Studies upon hypersusceptibility and immunity. By M. J. Rosenau and John F. Anderson. 69 pp. 1907.

No. 37. Index-catalogue of medical and veterinary zoology. Subjects: Trematoda and trematode diseases. By Ch. Wardell Stiles and Albert Hassall. 401 pp. 1908.

No. 38. The influence of antitoxin upon post-diphtheritic paralysis. By M. J. Rosenau and John F. Anderson. 34 pp. 1907.

No. 39. The antiseptic and germicidal properties of solutions of formaldehyde and their action upon toxins. By John F. Anderson. 48 pp. 1907.

No. 40. 1. The occurrence of a proliferating cestode larva (Sparganum proliferum) in man in Florida. By Ch. Wardell Stiles. pp. 7-18.—2. A reexamination of the type specimen of Filaria restiformis Leidy, 1880=Agamomermis restiformis. By Ch. Wardell Stiles. pp. 19-22.—3. Observations on two new parasitic trematode worms: Homalagaster philippinensis n. sp., Agamadistomum nanus n. sp. By Ch. Wardell Stiles and Joseph Goldberger. pp. 23-33.—4. A reexamination of the original specimen of Tenia saginata abietina (Weinland, 1858). By Ch. Wardell Stiles and Joseph Goldberger. pp. 36-40, 27 pl. 1908.
